Welcome Address

Dear Colleagues,

It is my great pleasure to welcome you all to the ceremony of the **silver jubilee** of the Military Medical Academy and the 3rd international Medical and Surgical conference that will be held on that occasion. This important event will take place in Cairo from the 11th – 13th of November 2008.

Beside our different Universities professors and military national participants, 12 international well known guests are invited to participate in this occasion.

The topics will focus on the recent updates in Oto-rhino-laryngology Head/Neck & Skull Base Surgery, Gynaecology, Nephrology, Vascular and Laparoscopic Surgery, Autoimmune diseases, Haematology & (Medical & Surgical) Oncology, Anaesthesia, ICU, GIT, Hepatology, Paediatric (Surgery, Medicine), Plastic Surgery, Dermatology and Andrology.

Great facilities are included. Live transmission from the military medical centers is available for those interested in difficult and pronounced ENT and cardiology procedures. A satellite symposium will be arranged. Interactive sessions allow the interaction between speakers, conference panels and attendants.

All attendants are invited to play active role in our conference and participate in the scientific sessions and discussions to maximize scientific value that we shall all benefit from.

You are welcome to our conference in MMA, & it is our great pleasure to join us in this meeting.

Prof. Omar Heikal MD

*President of the Conference
Director of MMA*

October 27th – 29th, 2009

The Military Medical Academy (MMA)

The Military Medical Academy (MMA) in Egypt, founded in 1979, is the main medical training organization in the Egyptian Armed Forces. Hand in hand with the Armed Forces Medical Services Department, MMA is responsible for military medical education and planning, execution, follow-up and development of the postgraduate academic qualifications and clinical training for military doctors, nurses, and Para-medical personnel.

The main teaching facilities for the MMA are four *military medical institutes*:-

- Military Medical Sciences Institute
- Aviation and Space Medical Sciences Institute
- Marine and Deep Diving Medical Sciences Institute
- Hygienic Studies and Preventive Medical Sciences Institute

Training programs in several military medical hospitals and facilities and civilian universities in Egypt constitute the venues for the local clinical and academic training as well as overseas training through established protocols with international medical institutes and organizations.

Medical Sector of Supreme Council of the Universities

MRCS Military Examiners for the Royal College of Surgeons of England

Sterning Committee of FOCH Hospital

Partnership between MMA and Medical Service in Brussels, Belgium

MMA sponsors the examinations of several British Royal Colleges including the examinations for the Membership of The Royal College of Surgeons of England (**MRCS**), the Membership of The Royal College of Physicians of England (**MRCP**), the Membership of the Royal College of Paediatric physicians (**MRCPch**), the Membership of Maxillofacial and Dental Surgery (**MFDS**), and is on its way to finalize similar agreements in other specialities as anaesthesia and paediatric surgery.

All year round the Academy offers a wide range of scientific medical activities attended by military and civilian doctors, nurses, and paramedical workers contributing to the support and development of the medical services in Egypt as a whole .These activities are held in the form of scientific medical meetings, lectures, seminars, workshops and conferences both national and international with the participation of distinguished lecturers from various countries.

Research facilities in the Academy include an up-to-date library with medical textbooks, periodicals and audiovisual aids, a hyper speed World Wide Web net outlet linked to medical data banks all over the world and a department for electron microscopy research.
